**Myth vs. Fact**

**Fact:** In 1991, more pro human competition rode Trek OCLV carbon than any other bike, by an overwhelming 2 to 1 margin. Given the incredible strength and lightness of Trek's OCLV carbon, it's no wonder that so many of the world's leading athletes choose them for the maximum challenge. Source: *Jewell Triathlon Magazine*.

**Myth vs. Fact**

**Fact:** as OCLV carbon frame weighs only grams more than one water bottle. At 2.44 lbs. in a 56 cm frame, including paint, our OCLV carbon frame exceeds the weight of a full water bottle by a mere 181 grams—about as much as the weight of a pair of hot socks. Not only is Trek's proprietary OCLV carbon the lightest frame material, it's also the strongest frame material in the world.

## New World Tourist™ Foldable Touring Bike

Our most popular bike for recreational fun or long distance touring. Evolved from our first Bike Friday® in 1992, this bike has toured every corner of the world. It is designed for comfort, practicality and a secure handling ride.

• **The 20" wheels give a "big bike" ride, but are small enough for folding and traveling.** With a 406mm rim, these wheels allow you to find tubes, tires, spokes or rims in most bike shops. They accelerate easily and are sturdy on rough roads.

• **The Sachs hub system is easy to shift and highly reliable.** It features three internal gears and a 7-speed cassette with shifters that are simple to operate. It even shifts at a stand-still.

• **We build it just for you.** We hand-craft the frame from cro-moly steel, powder coat it with your choice of color, and assemble it with components chosen to work under tough touring conditions. Finally, your name is engraved on an attached brass plate. It's your personal traveling companion.

• **This bike will haul you and your gear.** It features braze-ons for three water bottles, front and rear racks, fenders and our special trailer. Add the travel package and you are ready for touring.

• **The bike is road-ready - with comfort in mind.** It comes standard with padded touring "H" bars and PowerGrip shifters, or you can choose the drop bar package with RSX STI shifter/brake levers. The bottom bracket and headset are sealed for durability. Since saddles and pedals are so individual, we price the bike without them, but offer several models for you to purchase with your order.

### Folds Fast

Fold seat mast down next to main frame.

Turn front wheel and swing rear wheel under frame.

Pop stem up and place next to frame.

The New World Tourist quick-folds in seconds for travel on a bus or train, or storage in a trunk or closet.

**"My New World Tourist was terrific. Not a single problem, not even a flat tire. I was fully loaded and the lower gears were very much needed. I love this bike!"**

**Ron Marra — NWT Owner**

## New World Tourist

Touring  
Road  
Hybrid

- Bars: flat, drop, STI touring, or H-style
- Gearing: 9, 21, or 24 speeds
- Average weight: 21-25 lbs. / 9.5-11.4 kg., excluding saddle and pedals
- Wheels and tires: 20" x 1.125-1.75" (406 mm) road, touring, hybrid, or mountain
- Portability: quickly folds into a TravelBag or packs into a TravelCase
- Base price: \$995

The New World Tourist® is the most popular custom-built Bike Friday model. A versatile, sturdy, but light bike that can be readily carried up a flight of stairs or travel the world in its compact suitcase that converts to a trailer.

The New World Tourist can be built or adapted to fit a wide range of riders and riding styles. The right fit is important to our customers. So, we size the New World Tourist for riders 4'7" up to 6'8" (1.4-2 m). The wide-ratio gearing delivers flexibility and performance when and where you need it. The right gear is available for scaling steep hills comfortably, making the most of long flats, or for handling the demands of stop and go commuting.

The New World Tourist features generous fork and chainstay clearances, permitting the use of an unusually wide range of tires, including off-road. This allows you to pick the right tire for long-range touring, road riding, commuting, or mixed use. No matter how the New World Tourist is configured and ridden, the powerful V-brakes ensure safe, sure stops every time in most kinds of weather.

With its multipurpose design and enticing range of options and colors, many people have found the New World Tourist to be the right bike for many different kinds of riding.

*"Originally I feared that I might need two bikes: a Bike Friday to commute and a 'real' bike for touring. Not so! The New World Tourist is as real as it gets, and I'm very happy with it."*

**New for 2014 - All new fitness equipment in the free exercise room and an ATM machine has been installed at the front gate. All new bathrooms in the building Three indoor rec center. New luggage carts are located in the elevator areas at ground level.**

## And here's the great beach you'll find onsite at the end of the boardwalk...

The resort is comprised of 4 buildings containing 468 villas - all privately owned - conveniently located mid-island Oceanside at mile marker 7 on Route 278 (663 William Hilton Parkway) - at the heart of Hilton Head Island - each building has a different amenity feature in the center courtyard area of the building. Building One (which is the closest to the beach) has the largest pool in the resort. Next to the pool is the Island Grill & Deli, (Bar, Deli, and a Gift shop/convenience store). Building Two has a park like setting with a sundeck and badminton court. In building Three you'll find an enclosed Atrium area with an indoor pool and hot tub among other things. Building Four sports the Tennis Courts. The Resort has so many amenities; it is hard to list them all. There is private beach access at the end of the 400 yard scenic boardwalk - just a 5 to 7 minute walk, or catch a ride for yourself and your "beach stuff" on one of the complimentary 3 or 4 seat golf cart shuttles.
